Updated notice on arrangements of the Boxon Group during corona virus prevention

Given the ongoing situation regarding the spread of the corona virus, we have taken the following precautions on our different markets.

Boxon Asia

At present, all our Account Managers and related staff are working from home. If any questions, you can reach us by regular email and phone.

We are actively in contact with government, suppliers and forwarders to be updated and to monitoring the situation. As for now we are facing a total stop within the logistics flow and we cannot make any guarantees about delivery time. We will keep all our customer updated on a weekly basis.

You can continuously send order/delivery request to our mailbox: order.asia@boxon.com. We will reply within 24 hours.

Our company will stop all visiting activities during this period and switch to use electronic tools for communication, to minimize outside working and prevent infection.

Boxon Nordics and EMEA

We are monitoring the situation thoroughly, and our businesses are currently not affected by the outbreak and we can continuously serve our customers in our markets Nordics and EMEA.

Of course, we follow the situation closely and will inform as soon as the situation possibly changes and affects our services.

Thanks for your cooperation!

Boxon Group AB
